Who We Are

The Kokomo Public Schools' Education Foundation is an Educational Foundation formed in 1989 by a group of concerned citizens interested in encouraging academic excellence in the Kokomo School Corporation.

What We Do

We support programs that will stimulate excellence in the Kokomo School Corporation while enhancing the quality of education by improving teacher morale and professionalism. Our Foundation encourages more effective instruction, strengthens motivational and mobilizes community involvement and support for Kokomo Schools. This includes, but is not limited to, the following:

- Mini grants for teachers;
- Innovative experimental educational programs;
- Staff enrichment programs;
- Vocational and college scholarships;

How We Work

The Foundation receives its support from those who believe in enriching the education of our children.

The Foundation accepts donations of any size.

Interested persons have an opportunity to make tax-deductible bequests, memorial contributions, and other gifts, which will be conserved and used as designated.

A cross section of the community serves on the Board. The foundation is independent of the public school system, and is a 501(C)(3) charitable organization.

Degrees or Certification

Walt Moss

His friends call him “Walt.” Throughout Howard County Walter J. Moss is a household name. He is a life-long resident of Kokomo, graduate of Kokomo High School in 1951, and a business entrepreneur. Walt began his barbering career in 1952, purchased his own shop in 1965, and retired in 2006. The Walt Moss Barber Shop remains an institution in downtown Kokomo.

Walt believes that education is a vital part of any community’s success. Through his generosity, Walt has made it possible for the Kokomo Schools Education Foundation to offer scholarships for professional educators in Howard County. Both Walt and the Kokomo Schools Education Foundation believe that highly trained teachers and administrators translate into improved student achievement and an academically sound atmosphere for learning.
