

How-To Create a PowerSchool Parent Portal Account

PowerSchool, the student information system for Kokomo Schools, provides you with the ability to access your student's grades and attendance.

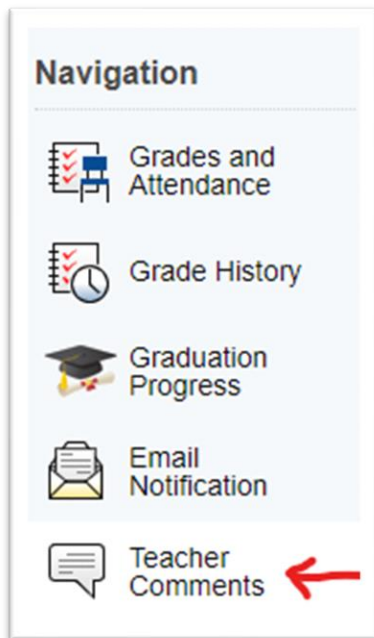

To access this PowerSchool feature, please go to: <https://kokomoschools.powerschool.com/public/>

- 1) If you have previously created a PowerSchool account during enrollment, please login with the username and password you selected. Then, link students to your account with the unique Access ID and password provided by your student's school. To get this information, please contact the school your student attends.
- 2) If you do not have an account, click the tab "Create Account" and enter the required information. You must have a working email address to create an account. Add your student(s) with the unique Access ID and password provided by the school.

Contacting Your Student's Teacher(s)

There are two ways you can contact your student's teacher(s).

- 1) Call the school building and leave a message or a voicemail. Teachers will return calls at the end of the school day.
- 2) Email the teacher through the PowerSchool Parent Portal by clicking on the Teacher Comments icon on the left side of the screen. See image below:

Next, click on the  icon next to the teacher's name to access their email address. Copy and paste this email address into the email program you use.
